No. 64-222/2012-BB

Dated: 13-06-2012

To

All the Chief General Managers
Territorial Circles/Telecom Districts

Subject: Requirements of NTP-2012.

NTP-2012 is recently approved by the Cabinet. The following salient points are highlighted in NTP-2012 with respect of Broadband :-

- i) The broadband will be made available on demand by 2015.
- ii) The broadband speed will be made 2 Mbps from existing 256 Kbps and subsequently upto 100 Mbps by 2020.
- iii) 175 million broadband connections by 2017.
- iv) 600 million broadband connections by 2020.

Broadband is being offered at present by BSNL on both wire-line and wireless technology. It is also envisaged that large number of broadband connections are expected to be provided using last mile connectivity on Cable TV. BSNL has always maintained that 50% of the National Targets can be met by the efforts of BSNL alone.

Looking at the above inputs, it is requested to kindly submit your inputs/suggestions, as to how the NTP-2012 objectives can be met by BSNL. **The details may kindly be submitted to this office latest by 18th June, 2012.**

(ANIL JAIN)
